SUMMARY

The old restaurant located on the curve of Monaco, on the Cascais line, will give rise to a project for a four-star hotel, with all kinds of amenities and a sea view in the first line. The project contemplates the construction of a four-star hotel, with 3597m2 of gross building area, with 54 rooms (including suites with jacuzzi on the balcony), two restaurants, an indoor pool, gym, two function rooms, two bars, one SPA and a lounge with sea view on the hotel's terrace. The construction of parking spaces is also planned, with 887 m2 of indoor parking. The architecture and specialties project is in the final stage of approval by the Oeiras city council. Even so, an article was published in the news daily, where they present the construction of new projects in the municipality of Oeiras and where we can find the project for this future hotel 'Monaco'. The marginal road where this project is going to be built is one of the places with the best view of the sea across the Cascais line, and this may be one of the last new construction...

AMENITIES

- Garage
- Terrace
- Elevator
